Description

Objective: Specific objectives of the Thematic Network include the effectiveness of dissemination of research, studies and projects carried out on Land Degradation Management (LDM) in the Mediterranean coastal zone. The network aims at providing research and project reviews, indications-guidelines to implement LDM through the assessment of interactions among major factors of resources management such as soil, water, biota, human activity, cultural resources, soil erosion, land degradation. Major expected impacts will be:

- better understanding of research and research needs ;
- better communication structure within players involved in landscape and soil degradation management, improved accessibility to information on relevant research;
- better approach to implement real participatory eco-system and economic-productive based land-soil degradation and conservation management.

Achievements:

General information:

Project Details

Start date:2002-10-01

End date:2006-09-30

Duration:48 months

PJ_REF:ICA3-CT-2002-10002

Project cost:1305001 EURO

Project Funding:1305001 EURO

Programme Acronym: [INCO 2](#)

Programme type:Fifth Framework Programme

Subprogramme Area:Mediterranean partner countries

Contract type:Thematic network contracts
