Description

Objective: Improvement in co-operation between companies and municipalisations from northern and southern Mediterranean countries.

- Settlement of improved energy management tools in municipalities.
- Detection and prioritization of renewable and energy efficiency related projects.

Dissemination of results.

- Increase urban quality life, creating roots for people in its own country.
- Development of long - term commercial relationship between north and south by means of short - terms projects.
- Settlement of a working board in order to identify possibilities and strategies for an effective introduction of energy and environmental friendly technologies, selecting projects with a high replication potential in the region.
